

# Welcome

to the  
**Joint Replacement Center  
at Douglas County Hospital**

The Joint Replacement Center at Douglas County Hospital was designed for you.

We offer compassionate, comprehensive care for people undergoing elective joint replacement surgery. Our center has been created to provide an unsurpassed experience that will shorten your hospital stay and improve the quality of your orthopedic care. Bringing together the combined expertise of our orthopedic specialists, we have developed a program that is simply unparalleled in the area.

And best of all, you can stay close to home, work, family, and friends rather than traveling great distances for our state-of-the-art care.

*motion is restored,* and  
a full, *active lifestyle* begins.  
*Again.*

And it's all right *here* at  
Douglas County Hospital ...

  
**Joint Replacement Center**  
Douglas County Hospital

### Advanced Knowledge. Advanced Care.

**Joint replacement surgery can make a true difference** in an individual's life.

Where you choose to have this important surgery can also make a difference.

At the Joint Replacement Center of Douglas County Hospital, **every patient benefits** from the expertise of our highly skilled team of medical professionals. Our Joint Replacement Team consists of board-certified, fellowship-trained orthopedic surgeons, experienced anesthesiologists, nurses, a joint care coordinator, physical and occupational therapists, pharmacists, as well as social services. Our team approach is key to perfecting procedures that lead to **quicker recovery** for our patients.

### Our Seamless Team Approach.

Patients and their families can take **comfort** in knowing that our health care team is working with them to achieve the best possible outcomes. From extensive presurgery education to a complete continuum of care following surgery, a **seamless, step-by-step program** has been created to ensure that you will have the information, care, and support you need throughout your joint replacement experience.

### Patient Satisfaction is Our Goal.

We care greatly about **patient satisfaction**, and **quality care** is our primary focus. In addition to our dedicated and skilled staff, you will have access to a private room designed for patient comfort. The Lodge (our therapy room) provides a supportive environment where patients and families

meet others who are facing similar challenges. The **camaraderie and support** that develops has shown to improve outcomes.

Upon leaving the hospital, patients will continue to have access and support from our experienced professionals. Telephone calls and follow-ups ensure a **successful recovery**.

### Healthy Treatment for Healthy Patients.

The Joint Replacement Center at Douglas County Hospital was designed to treat **individuals like you** ... healthy people who have led active lives and simply want to return to the activities they enjoy most. Whether you want to walk, work, or play more, we can help you return to the lifestyle you desire.
